NOTES

Do you want a telephone in your house or store? Just sign the contract and remit half a year's rental and when the gang is here working on the new long distance line your installation will be made. Don't turn a good opportunity down, for you never know how long it will be before the gang returns on the job again.

Mr. McNaughton has expended a good deal of effort toward inducing the department to take up this work this year and it is gratifying to note the successful issue.

The Armada people are out after an extension to that post office and they have a claim that cannot be rightly overlooked.

American citizens who have been in state of suspense, not knowing exactly what was expected of them by the military

regulations, will note the adv. on the front page and govern themselves accordingly. This is the outcome of reciprocal negotiations completed between Canada and the United States.

The opinion of Canadians generally is that German prisoners of war and a good many enemy aliens now living in Canada should be put to work on roadbuilding in Canada. The men could be looked after by returned veterans and the fact of their being in Canada would release considerable tonage in the transportation of supplies.

You never hear of the Swiss coming to America to view the mountain scenery, yet while America abounds in the scenic wonders of nature, in pre-war days Americans flocked away from home to enjoy what might have been surpassed at home. We western Canadians have our Banff resort, but the place is prohibitively inaccessible unless you go in by train. People now prefer travelling in their motor cars; but the trail from Calgary to Banff is an expensive risk to a man with a car. A good deal of public money might well be spent on this stretch of highway so that all might enjoy this nature-given heritage.

\$500.00 SILVER CUP FOR BEST WHEAT

The Department of Colonization and Development of the Canadian Pacific Railway announces that it will award a silver cup valued at five hundred dollars for the best bushel of hard spring wheat exhibited at the International Soil-Products Exposition at Kansas City on October 16-26, 1918. All farmers in Western Canada who have good hard spring wheat should be interested in this announcement and it is hoped that among them will be found the successful competitor.

Wheat has become a vital factor in the conduct of the war and the railway company hopes in this way to encourage production of the best varieties. At the same time it is hoped this competition will focus attention upon the immense food-producing possibilities of Western Canada. Canadian farmers have been winners of many competitions of the International Soil-Products Exposition and the winning of this cup by one of their number would be an appropriate climax to a series of triumphs.

It is expected that boards of trade, agricultural societies, farmers' organizations and other public bodies throughout Western Canada will interest themselves in seeing that the very best bushel of wheat in each of their respective districts is entered in this competition. Individual farmers will also no doubt be eager for the distinction of winning this cup. Particulars as to the exhibit may be had by addressing Robert J. C. Stead, Publicity Agent, Department Colonization and Development, C.P.R., Calgary.

But, if necessary, the vegetables may be stored outside, both in small and large quantities, except in the case of onions, which must be kept dry and stored in a cool place where there is little or no frost.

Even if it does pinch a little, try and arrange to buy some of the new Victory Loan bonds. The more that Canadians finance Canada, the greater will be the prosperity of the people. The Victory Loan is as safe as a bank deposit, pays a better rate of interest, and is an inducement towards thrift as it removes one's money from a continual point of contact to a place where extravagant fancy is not so apt to overrule one's sober judgement.

Take This 15 to 25 Per Cent.

----it's what we saved you on our advanced buying. A year ago we anticipated the needs of this district and, knowing the markets as we do, we determined to save ourselves and our customers against the 25 to 35 per cent. increase on this year's goods.

Winter goods of real quality are about as plentiful as hens' teeth, and the prices have gone out of sight. But, in common with a very few other stores in this country, we have now got the goods at a fair price----and the goods we still stand back of.

Penman's Sweater Coats

Heather mixture, with military collars, cotton and wool in medium weight, a good garment to wear under a smock, all sizes, at \$2.75

Penman's Worsted Yarn Sweater

This is one of the best sweaters made by Penman's this year. The collars, cuffs and facings are pure wool, the body is 70 per cent. wool and the yarn twisted hard so as to give the wear. Extra value, bought on last year's market, all sizes, at \$5.50

Other lines of cotton and wool mixtures, at from \$1.75 to \$5.00

Many lines of pure wool sweaters at from \$6.50 up.

Winter Underwear, our own brand

Heavy elastic ribbed, a good warm garment, very durable and unshrinkable, mostly wool, a little cotton, all sizes, per garment \$2.00

Heavy Cord Pants for Men

This is the only corduroy pant we have ever handled to any extent without having trouble. There are very few real good corduroys on the market and this one is the daddy of them all. We have yet to hear one complaint on this line and we have sold in Lomond 112 pairs inside a year. Price \$6.00

Farmers Must Carry On!

This is their essential responsibility in the struggle for peace. Despite what we read of intensive cultivation in the Old World the Canadian and American farmers are the heaviest producers per man. It's the man aided by the most modern machinery that makes the record. A "Fordson" or "Samson" tractor will help you. Massey-Harris machinery cuts out the worry and a Ford car is indispensable to a farmer that means business.

LOMOND DISTRICT

Practically everyone has finished threshing, and while the yields have not been anything to blow about, the majority of farmers are willing to put their utmost into preparing the soil for next year as everyone has high hopes concerning the coming crop.

Mr. and Mrs. Gallagher have left for their new home on the Pacific coast, the former intending to work in a munition factory.

Bob Sinclair intends to visit Calgary in the near future. This is all that we wish to say at present, but we will note developments.

Mr. Dobson expresses his desire to sow one hundred acres to fall rye next year and by this method he will do away with so much plowing.

Fall plowing has commenced in this district as the farmers see that there is no sign of rain in the near future. They are determined that the weather man shall not put one over on them.

"Bill" Armstrong is around again with his crutches and bound-up foot. He hurt his back a month ago and sciatica set in and settled in his foot, causing him a great deal of misery. We wish him a speedy recovery.

Jimmy Stark of the Desoronto R.A. F. camp, and bride, are visiting with Mrs. Stark.

Tenders for School House

SEALED TENDERS will be received by the Board of Trustees of Adler School District No. 3655 at the office of the Secretary-Treasurer up to noon of September 16th., 1918, for the erection of a frame school building.
